

GLOBAL INCOME FUND ANNOUNCES 1-FOR-4 REVERSE STOCK SPLIT

New York, NY, October 26, 2012 – Global Income Fund, Inc. (Ticker: GIFD) (the “Company”) today announced a 1-for-4 reverse split of the issued and outstanding shares of common stock of the Company, effective as of the start of trading on November 5, 2012. The reverse stock split was approved by the Company's Board of Directors and is intended to enhance shareholder value. As a result of the reverse stock split, one new share will be issued for every four currently outstanding shares.

The reverse stock split is expected to result in a higher per share market price for the Company's common shares and may benefit shareholders and the Company by reducing certain per share transaction fees and other administrative costs.

The Company will retain its trading symbol but has been assigned the following new CUSIP number, effective November 5, 2012: 37934Y207.

Each shareholder will hold the same percentage of the Company's outstanding common stock immediately following the reverse stock split as held immediately prior to the split, subject to adjustments for the intended sale of fractional shares resulting from the transaction. The Company will not issue new post-split share certificates. Current holders of certificates representing pre-split shares of the Company will receive non-certificated post-split shares, meaning their holdings will be reflected only in the Company's record books. Holders of certificates will not be able to trade their shares until they surrender their pre-split share certificates. However, they will continue to receive dividends or other distributions. Although the reverse split will not result in a taxable transaction for shareholders of the Company, the exchange of fractional shares for cash may cause some shareholders to realize gains or losses, which could create a taxable event for those shareholders.
